Sawdust Flour From Waste of Lumber Mills.

Flour from sawdust is another step in the movement for the conservation of forest resources. The United States consul at Christiana, Norway, has sent to this government a suggestion along this line which may be of value to American lumbermen who are wrestling with the problem of sawdust waste.

The flour in question is not the kind which goes into the making of light, fluffy biscuits; and the other kind which are not light, or flaky pastry, but it is an ingredient of dynamite, linoleum, xylite, which for the information of the man on the street, is a kind of artificial flooring and other things. It is not put forward as a new discovery for it has been in use for several years in Europe, and to a small extent in his country.

The wood flour is ground in a heap mill, very similar to those which grind corn and rye. Pine and spruce sawdust is used in Europe, and after passing through the tones and the bolting chest, it is sacked or bailed for shipment. It is worth twelve to thirteen dollars a ton.

The flour has a number of uses, one of which is in making of dynamite. It is the absorbent for the nitroglycerine.

AGED KING DEAD HOPE WAS HIGH

Leopold Calls to Doctor That
He Is Suffocating and
Expires.

PRINCE AT BEDSIDE

Varied Career of Monarch
Who Accumulated \$500-
000,000 is Over.

Brussels, Dec. 17.—Leopold II. King of the Belgians, died at 2:35 o'clock this morning, his aged and wasted body being unable to stand the strain put upon it. The collapse occurred suddenly and at a moment when the doctors seemingly had the greatest hopes for his recovery.

Prince Albert arrived at the bedside about twenty-five minutes later. He was accompanied by Princess Clementine.

King Leopold was the most ruinous and most despised figure in the world affairs for the last twenty years. Rising to power over the bodies of men, he died in shame.

Behind the mind of this man, who at once was profligate, monarch and despot, was a genius for acquisition and organization. His wealth is estimated at fully \$500,000,000.

Leopold was born April 9, 1835, and had been king for 44 years.

The only brother of King Leopold, Prince Phillip Eugene, died four years ago, leaving two daughters and a son. The son, Prince Albert, of Flanders, is the recognized heir to the vacant throne. He is declared to be far superior to the dead king in ability.

If throughout his long career King Leopold was cold-blooded, self seeking voluptuous and money grabber, he had some redeeming virtues. For more than forty years he kept a promise to his mother never to sign a death warrant. He willed to the people of Belgium his colossal interests in the Congo.

Resolved, That we extend to the bereaved widow and family our heartfelt sympathy and commend them for solace and comfort to Him who doeth all things well.

Resolved, That as a further token of respect that the members wear the usual badge of mourning for 30 days.

Resolved, That these resolutions be spread on the minutes of our camp, a copy furnished the family and a copy published in the papers. Committee—Winston M. Davie, G. W. McKnight, and T. J. Nuckols.

TOWN'S ONLY

BABY LEAVES.

Population Sorrows for Fear

Stork Has Forgotten
Them.

Vina, Col., Dec. 15.—The first baby born in Vina in many months is to leave town. Mrs. Frank Baxter gave birth to a baby girl and the entire population rejoiced, but now there is sorrow because Baxter, who is a Southern Pacific agent, has received orders that he is to be transferred.

Vina has a population of more than 400 adults, yet there are only sixteen children of school age.

The birth of the Baxter baby is the first birth in many months, and it had been considered that Vina was practically a storkless town.

DAY RIDING ATTEMPTED

Brings the American Tobacco
Co. to Terms at Fordsville.

Owensboro, Ky., Dec. 15.—The first semblance of a recurrence of the day riding which prevailed last year in this section of the state is reported from Fordsville, Ohio county, where the American Tobacco Company went out of business for a couple of days. It has leaked out that the cessation was due to suggestion.

The "one sucker" type of tobacco, an inferior sort, has caused considerable trouble between growers and buyers in this section of the state this year. Ohio county produced considerable one-sucker tobacco, and it was sold to the American Tobacco Company on the same basis as the one-sucker crop in the Bowling Green district was sold. When deliveries began at Fordsville it developed that the American Tobacco Company was grading by a sample from the Bowling Green district, which the Ohio county farmers could not come up to. Their best tobacco sold at \$9, graded down in the vicinity of \$7.

As soon as the news of this state of affairs spread, the factory was filled with farmers, and Charles Bennett, the manager of the house, was notified to receive the tobacco already at the doors and then quit. He was subsequently informed that he had better not even receive that, and, in accordance with instructions, closed the factory.

Representatives of the organize farmers and the tobacco company got together on the day following and the sample was lowered. After two days' inactivity the receiving was continued, and all is now lovely.
